

Power Over Ethernet POE-J100

1-Port Power over Ethernet Injector

Overview

POE-J100 is 1 Ethernet Input (data only) port and 1 Output (data + power) port Power over Ethernet Injector that is designed for small or medium network environment to strengthen its network connection. This product can convert standard 100~240V/AC power into low-voltage DC that runs over existing LAN cable to power up IEEE 802.3af compliant network accessories. By adding POE-J100 to existing networking, installing networking products such as Access Points and IP cameras can be easily managed and set up. Wireless device deployments are easily located with available power outlets and network administrators don't need to use heavy AC power adapters anymore.

No Special Networking Cable Required.

By adding PoE devices, you can use an existing standard Cat-5 Ethernet cable to deliver both power and data where power source is difficult to obtain. It helps you reduce installation time and cost.

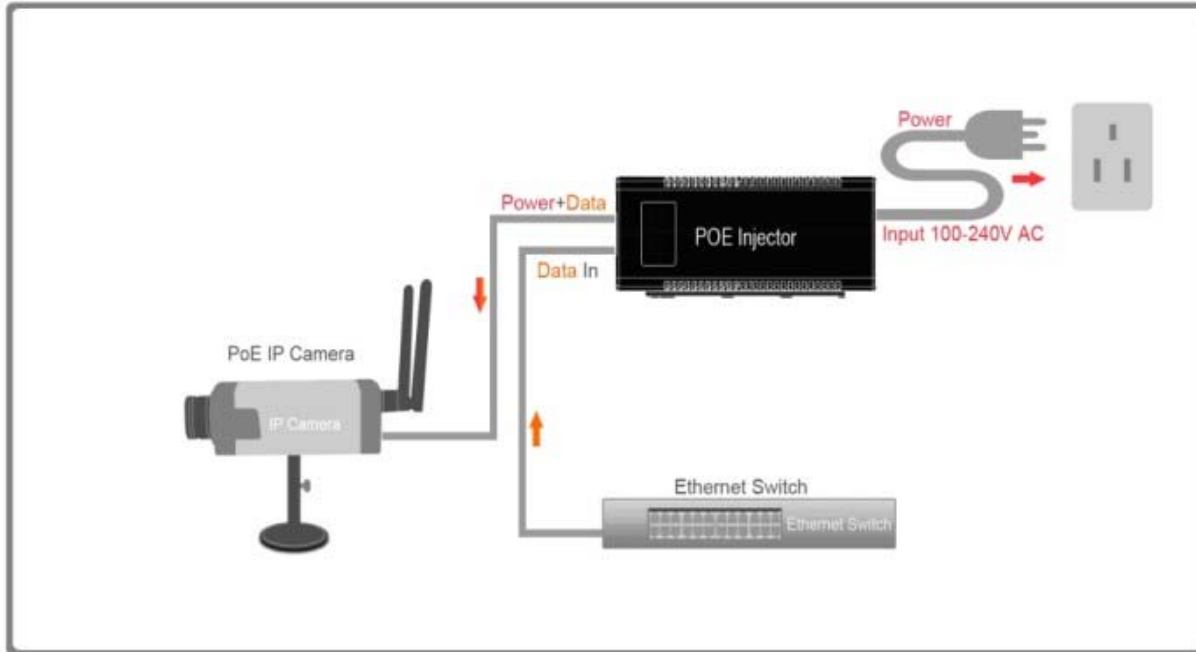

Specifications

Standards	IEEE 802.3 10BaseT IEEE 802.3u 100BaseTX
Features	Number of Ports: 1 Ethernet Input (data only) Port 1 Ethernet Output (data + power) Port
Led Indicators	Per Unit: Power
Power Input	100~240V/AC, 50~60Hz
Power Output	48V/DC at Full 15.4 W Output Supported
Power Consumption	15.4 Watts (Max)
Dimensions	120 x 50 x 35 mm (L x W x H)
Weight	0.14 kg
Operating Temperature	0 to 40°C
Storage Temperature	-20 to 85°C
Humidity	10 to 90% RH (non-condensing)
Certifications	FCC Class A, CE

Toplink C&C Corporation
